Pivot Travel Management

Air Suvidha 2.0

Health self-declaration for international arrivals to India

Government of India
Ministry of Civil Aviation · Ministry of Health & Family Welfare

Effective 25 Jun 2026

What is Air Suvidha 2.0?

A free online **health self-declaration** for passengers flying into India, screening for Ebola / Bundibugyo virus disease. Your details are shared in real time with Airport Health Officers, the Bureau of Immigration and public-health teams.

Official portal **airsuvidha.civilaviation.gov.in**

Free to submit · Up to 24 hrs before arrival · One form per traveller

Scan to open

What to prepare before you start

Identity & documents

- Full name as per passport
- Passport number & nationality
- Visa / OCI details, if any

Contact details

- Working mobile number
- Accessible email address
- Stay address in India, if asked

Flight & travel

- Airline, flight number & seat
- Arrival airport, date & time
- All countries visited in last 21 days

Health declaration

- Current symptoms, if any
- Ebola / Bundibugyo exposure
- Contact with suspected cases

When & how to complete it

1

Complete the form

Up to 24 hrs before arrival

Open the **official GOI portal only** — avoid paid intermediaries. Enter your passport, contact, flight, 21-day travel and health details, then review and submit.

2

Save the SDF

Before boarding

Immediately download or screenshot the Self-Declaration Form and email a copy to yourself. **Do not close the page before saving.**

3

Present on arrival

At the health / immigration desk

Show the saved SDF to airline staff before boarding, and at the **Health or Immigration counter** if asked. Follow any screening instructions.
